

 Silver A' Design Award Winner
in Furniture, Decorative Items and Homeware Design Category, 2011 - 2012.

The Fa.b
by Aiki Rovithi

Fabric Bookcase: The "Fa.B." is a fabric bookcase and a fabulous new way to store, arrange and protect your books and magazines. Outside the rationale of any shelving system, "Fa.B." offers the user renewable storage space. A single or more modular fabric units can be added to the wooden stand in a few minutes. The durable fabric along with the wide open wooden sides of "Fa.B." gives us the opportunity to use as little raw materials as possible, according to the "dematerialization" approach that our times require. The "Fa.B." is an easy to move around, foldable – literally!- flat-pack furniture.:
