

1. deep space, Kati Meyer-Brühl

The innovative shape – curved armrests, slightly tapered back, and graceful base frame – of the deep space seating range gives it an elegant, floating appearance. Pictured in chartreuse-coloured leather, deep space is available with a storage table, the front covers of which can be used as trays. Its wooden elements are available in beech, oak or walnut, with brass-, copper-coloured, or aluminium feet available on request.

3. Rituals XL, Ludovica and Roberto Palomba

Foscarini's Rituals collection, with its different and complementary forms, volumes and proportions, now offers an extra large version, a new irregular sphere in an impressive size. A refined lighting effect, emphasised by a delicately rounded shape

and the effect of the glass grinding – achieved by a special industrial working process – recalls traditional crafts. Rituals draws inspiration from traditional Japanese lanterns, employing rice paper and mulberry tree bark in a full body of blown, satin-effect glass.
